- Submissions must be typed, double-spaced, and single-sided, with pages numbered and 1.5-inch margins.
- Title page must include the names, titles, degrees, affiliations, and complete contact information for all authors.
- Tables and figures should be printed on separate pages and should be numbered in the order in which they are referred to in the text: e.g., Table 1, Figure 1, etc. Authors should indicate where tables and figures should be placed in text and be sure to refer to tables in the text.
- Acronyms and abbreviations should be spelled out at first mention, followed by the abbreviation in parentheses: e.g., Centers for Disease Control and Prevention (CDC). Use the abbreviation for subsequent cites.

REFERENCES

- Place endnote number at the end of the sentence in which it appears. Editors will move numbers to ends of sentences if not submitted this way.
- Assign a separate number to each endnote throughout the text, even when referring back to a source previously cited.
