

A SELECT BIBLIOGRAPHY ON HEALTH ASPECTS OF HUMAN RIGHTS (1984–1999)

Sev S. Fluss

This bibliography was prepared in the course of the compiler's work in the field of human rights at WHO during 1997 and thereafter while serving as a Special Advisor in the WHO-based Council for International Organizations of Medical Sciences. It does not purport to be comprehensive or necessarily up to date. Every effort has been made, however, to eliminate any bias toward English-language publications by including books, reports, and other publications (including special issues of certain journals) in all languages. The starting date, 1984, was selected arbitrarily, although it is fully realized that key contributions to the literature on the health and human rights interface were published prior to that date.

The following abbreviations are used to identify types of entries:

- [A] Article(s)
- [B] Book
- [D] Document(s)
- [M] Miscellaneous
- [P] Proceedings

The categories are designed to be similar to those used in the Amnesty International bibliography in this issue. Original-language titles are provided for all works except those by Qiu et al. and Shoji, which were inadvertently mislaid during a major reorganization of the World Health Organization undertaken at the end of 1998 and which could not be retrieved.

Sev S. Fluss is affiliated with the Council for International Organizations of Medical Sciences (CIOMS). Please address correspondence to Sev S. Fluss, CIOMS, c/o WHO, 1211 Geneva 27, Switzerland or to fluss@who.ch.

Persons using or consulting this bibliography are invited to communicate any additional information that may contribute to its improvement.

Acknowledgments are due to the numerous persons who provided source information on the basis of which the bibliography was prepared. Particular thanks are due to Dr. John Lau Hansen of WHO and Ms. Christine Klekr for their invaluable assistance.
