ABOUT THE JOURNAL

Health and Human Rights began publication in 1994 under the editorship of Jonathan Mann, who was succeeded in 1997 by Sofia Gruskin. Paul Farmer, co-founder of Partners In Health, assumed the editorship in 2007. After more than a decade as a leading forum of debate on global health and rights concerns, Health and Human Rights began its next chapter as an online, open access publication starting with Volume 10, Issue 1.

While carrying on the journal’s tradition of critical scholarship, the new Health and Human Rights provides an inclusive forum for action-oriented dialogue among human rights practitioners. The journal endeavors to increase access to human rights knowledge in the health field by linking an expanded community of readers and contributors. Following the lead of a growing number of open access publications, the full text of Health and Human Rights is freely available to anyone with internet access.

The new Health and Human Rights includes two sections: “Critical Concepts” and “Health and Human Rights in Practice.” Critical Concepts focuses rigorous scholarly analysis on the conceptual foundations and challenges of rights discourse and action in relation to health. The Practice section hopes to bring new voices to this kind of venue — highlighting the innovative work of groups and individuals in direct engagement with human rights struggles. Complementary and mutually reinforcing, these two sections will seek to foster engaged scholarship and reflective activism. In doing so, they will open directions for informed action by and with communities to realize the full spectrum of human rights.
