

## Make Meaningful Connections on the HLC!

The 2015 HU Engagement Survey results, as well as a wide range of community dialogs on the Harvard Longwood Campus (HLC) and beyond, shaped the priorities for professional and personal development across the HLC. Those priorities are to:

Enable more effective communication, whether through more regular and specific feedback, or embracing courageous conversation.

Expand our individual and collective fluency of diversity to cultivate our roles in creating an inclusive community.

Foster continuous improvement organizationally (process improvement/innovation) and individually (career development), as cornerstones of both job satisfaction and contribution.

Three content suites comprise the Meaningful Connections curriculum: *Work-Life & Wellness*, *Interpersonal Focus*, and *In The Know* (compliance and/or cyclical topics).

## Meaningful Connections Challenge & Raffle

Use the Meaningful Connections Challenge grid found here to inspire your development plan for the coming year and to be eligible for the year-end raffle!

To be entered into the raffle, register for and complete at least one of the courses on the grid marked with \*.
