

USAID
FROM THE AMERICAN PEOPLE

Maternal and Child
Survival Program

You are invited to attend an interactive breakfast session, at the Global Maternal Newborn Health Conference, titled **“The Moment is Now: Join a Global Movement for Postpartum Family Planning”**, hosted by USAID’s Maternal and Child Survival Program (MCSP) and FP2020.

Over the next year, more than 130 million births will take place in developing countries. We can and should commit to accelerate scale up of postpartum family planning using existing platforms more effectively and applying new WHO medical eligibility criteria. This session will seek to enlist you in expanding care for mothers and newborns through the integration of postpartum family planning (PPFP) counseling and services for every childbearing woman. Country level PPFP implementers will also share their insights into challenges and positive drivers in actualizing PPFP strategies at the national and sub-national levels.

The event will be held **Monday, October 19th, 7:00-8:00am UTC** in the **Hilton Reforma Don Diego II room**. Breakfast will be served.

If you have any questions, please feel free to reach out to Jessica Kerbo at Jessica.kerbo@jhpiego.org.
